5. 2.2: Division of Behavioral and Social Research (DBSR)

Release Date: 01-31-2012Open Date: 03-05-2012Due Date: 01-08-2013Close Date: 01-08-2013

Basic and translational social and behavioral research on aging processes and the place of older people in society. The division focuses on how people change with age, on the interrelations between older people and social institutions (e.g., the family, health-care systems), and on the societal impact of the changing age-composition of the population. Special emphasis areas are (1) Health Disparit ...

6. 2.3: Division of Aging Biology (DAB)

Release Date: 01-31-2012Open Date: 03-05-2012Due Date: 01-08-2013Close Date: 01-08-2013

DAB sponsors research on the molecular, cellular, genetic, and physiological causes and consequences of aging processes. The ultimate goal is to develop interventions to reduce and/or delay age-related degenerative processes in humans. DAB also has responsibility for maintaining existing resources and developing new resources for aging research, such as populations of well-characterized animals an ...
